## Kuda **Baskwa**, (1992)

---

Raised between Zimbabwe and Australia, Copenhagen based artist **Baskwa** is at the center of his practice, exhibiting works that primarily use acrylic on canvas.

He began painting to navigate the complexities that come from living with anxiety and depression. As time passed, this practice grew to be a notable career. He is deeply inspired by the downtown New York art movement of the 1980s.

His work is a continued exploration of identity, mental health and human experience.

## Works & Portfolio

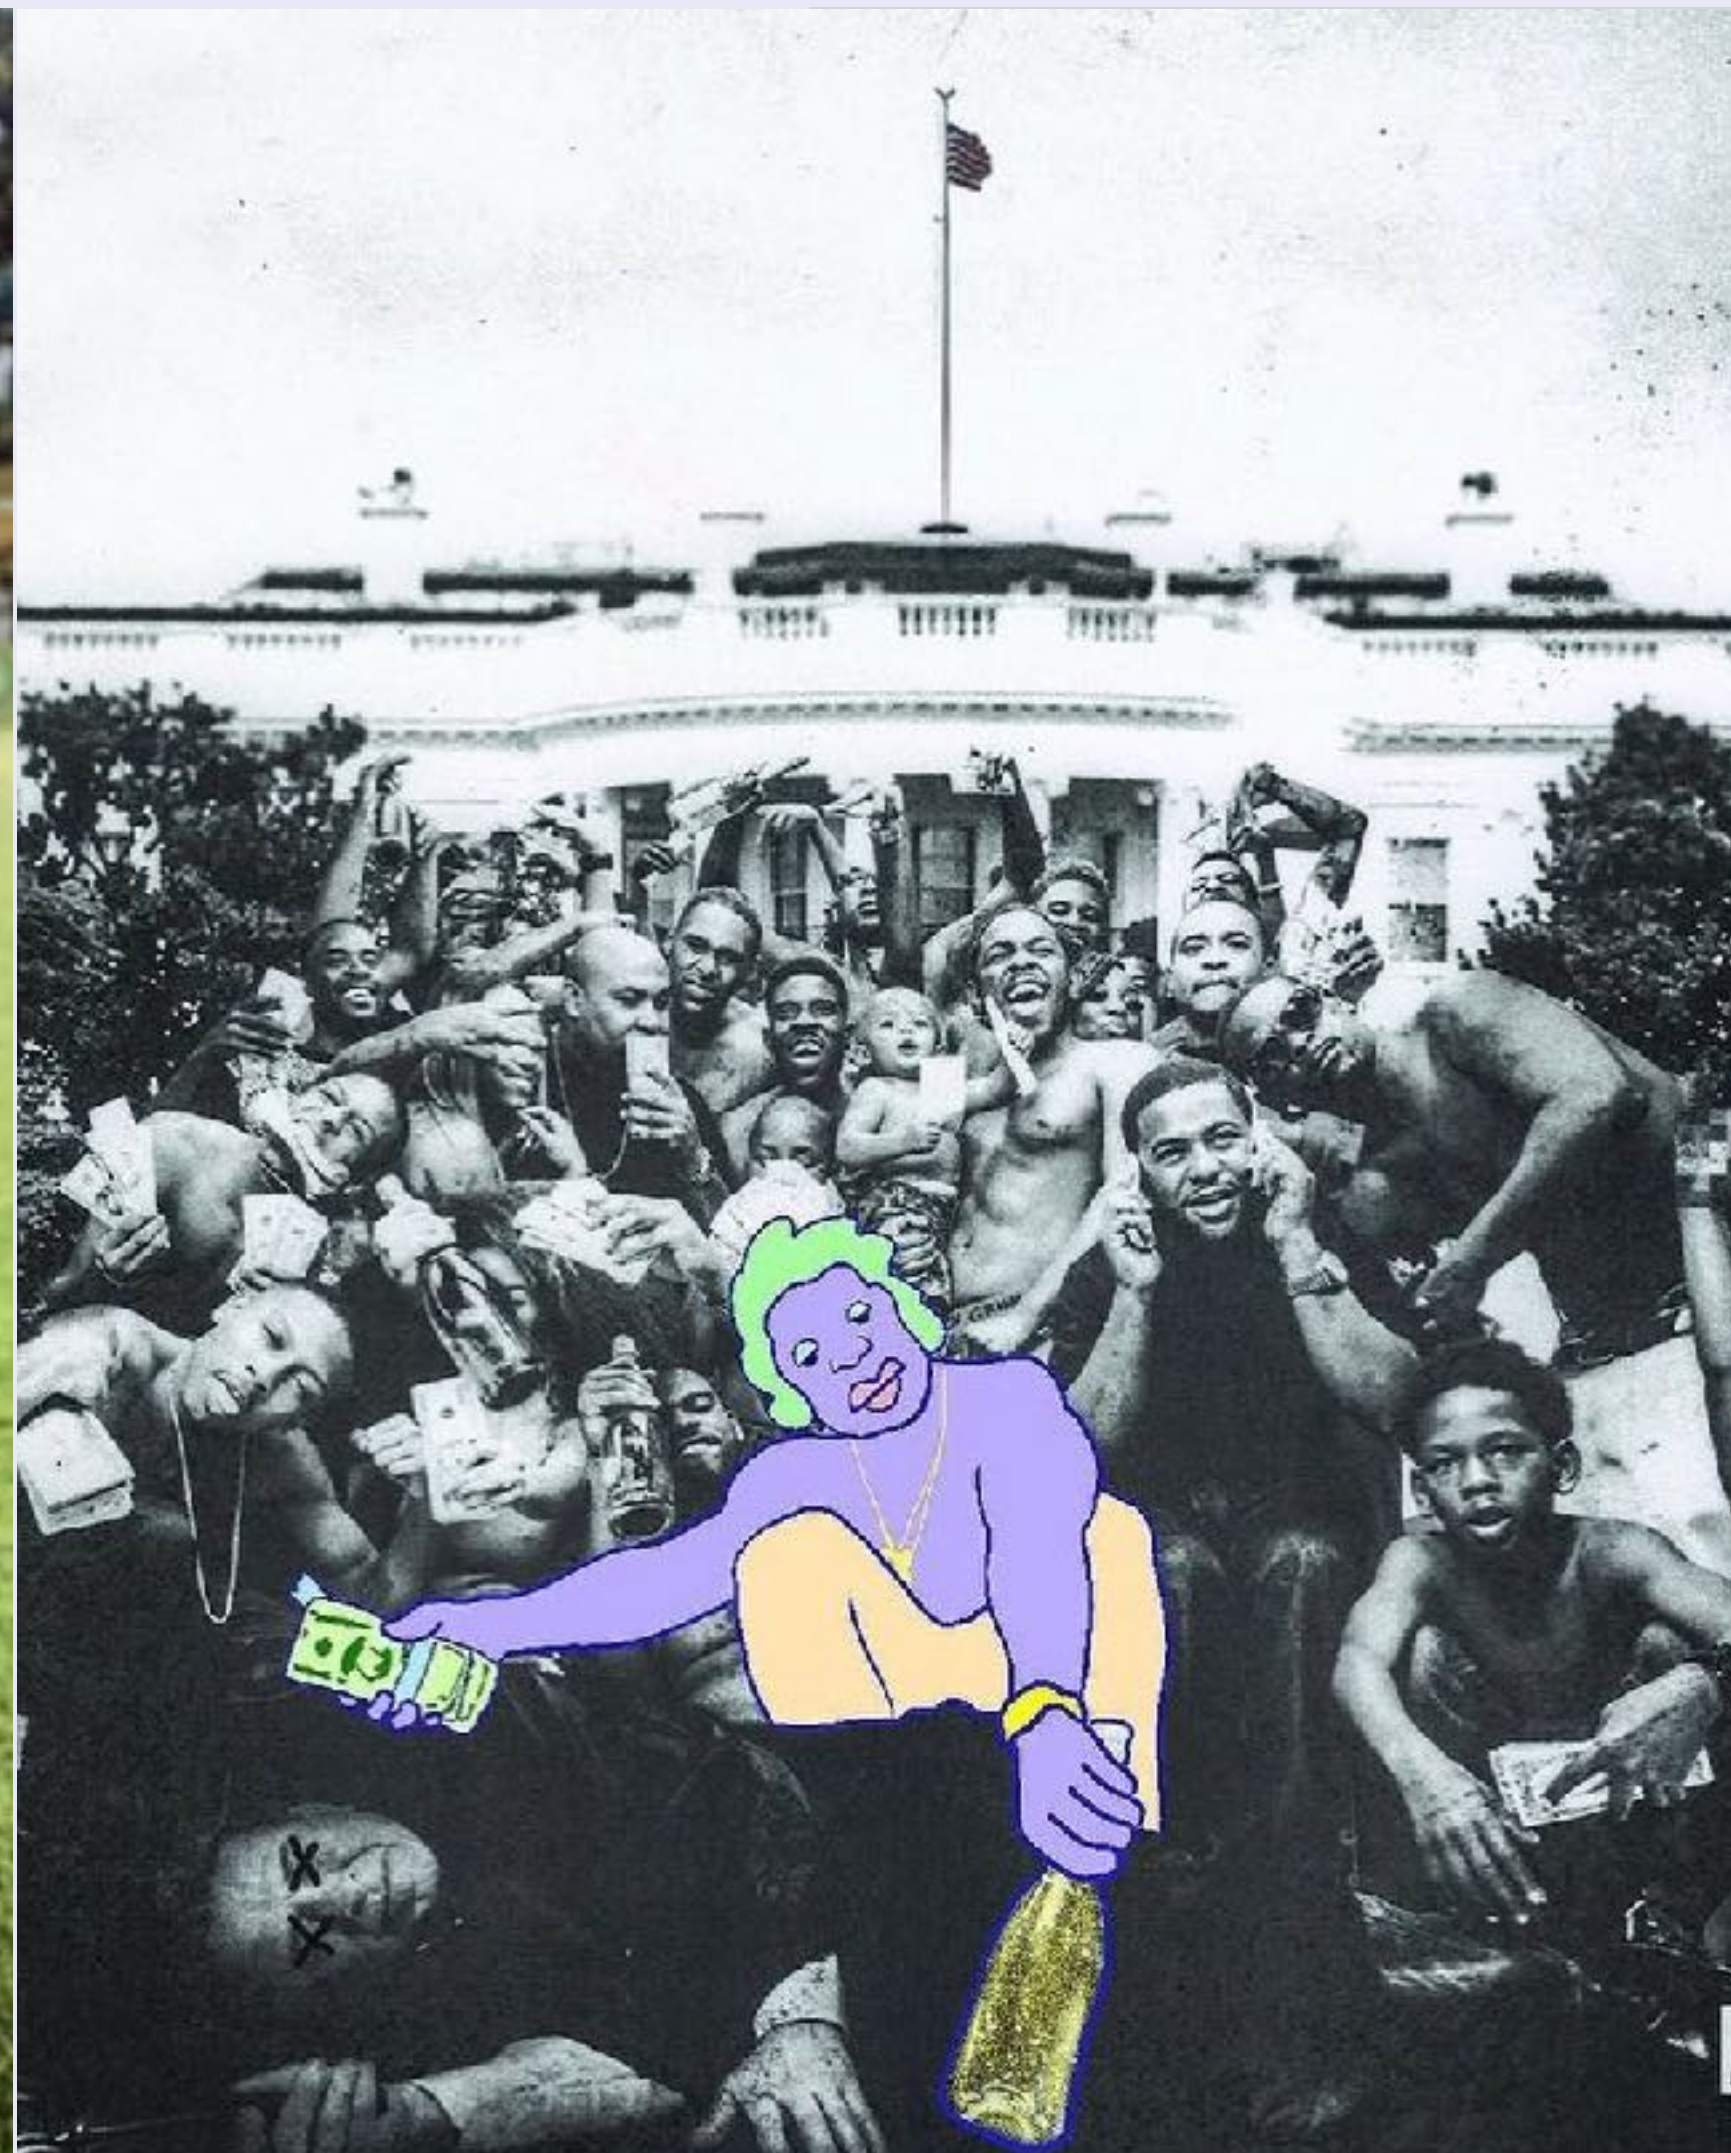

Zimbabwean born, Copenhagen based painter, Baskwa, utilises a range of block colour backgrounds alongside his signature facial feature composition to explore a collection of personal and pop cultural themes. Bordering the line between abstract and post-modern, Baskwa's work is uniquely striking.
